# Effective Academic Writing

AWRC II F2022

#### Contents

- 1. Be formal
- 2. Be precise
- 3. Be concise
- 4. Be careful with I, WE and YOU
- 5. Use subjects effectively

### 1. Be formal

#### 1. Be formal

#### **AVOID:**

- 1. Contracted forms
- 2. Spoken language
- 3. Punctuation showing your attitude

### 1.1. Avoid contracted forms

| BAD     | GOOD     |
|---------|----------|
| Mustn't | Must not |
| Wasn't  | Was not  |
| lsn't   | Is not   |

# 1.2. Avoid spoken words

| BAD  | GOOD   |
|--|--|
| The results have been pretty good.   | The results have been encouraging.   |
| As a result, I obtained a huge number of unneeded connections that I could not filter out. | As a result, I obtained numerous unneeded connections that I could not filter out. |

# 1.3. Avoid punctuation showing your attitude

| BAD   | GOOD  |
|---|---|
| Turnout in the election was less than 20 percent! | Surprisingly, turnout in the election was less than 20 percent. |

# 2. Be precise

### 2. Be precise

- 1. Avoid vague words
- 2. Use complete lists

### 2.1. Avoid vague words

Avoid words, such as big (bigger, biggest), good, thing, nice:

| BAD  |  |
|------|--|
| big  |  |
| good |  |
| nice |  |

# 2.2. Use complete lists

Avoid etc. instead of a full list:

| BAD                        | GOOD   |
|----------------------------|--|
| The periodic table divides | The periodic table divides                     |
| elements into metals,      | elements into metals,                          |
| non-metals, etc.           | non-metals, and semi-<br>metals or metalloids. |

### 3. Be concise

#### 3. Be concise

#### **AVOID:**

- 1. Phrasal verbs
- 2. Negatives
- 3. Redundant pairs
- 4. Redundant modifiers
- 5. Metaconcepts

# 3.1. Avoid phrasal verbs

| BAD  | GOOD                                       |
|--|--|
| The committee brought up this issue during the | The committee raised this issue during the |
| meeting.                                       | meeting.                                   |

# 3.2. Avoid negatives

| BAD            | GOOD     |
|----------------|----------|
| not many       | few      |
| did not accept | rejected |
| did not stay   | left     |

# 3.3. Avoid redundant pairs

| BAD                     | GOOD      |
|-------------------------|-----------|
| any and all             | any       |
| First and foremost,     | First,    |
| each and every          | each      |
| and so on, and so forth | and so on |

### 3.4. Avoid redundant modifiers

| BAD                | GOOD         |
|--------------------|--------------|
| completely finish  | finish       |
| future plans       | plans        |
| basic fundamentals | fundamentals |
| in order to        | to           |

### 3.5. Avoid metaconcepts

#### **Concepts about concepts**

 approach, assumption, concept, condition, context, framework, issue, level, model, perspective, process, prospect, role, strategy, subject, tendency, and variable.

# 3.5. Avoid metaconcepts

| BAD  | GOOD  |
|--|---|
| The re-factoring strategy seemed to be ineffective.                  | Re-factoring seemed to be ineffective.                |
| The process of data generation is explained with the following plan: | Data generation is explained with the following plan: |

### 4. Be careful with I, WE, and YOU

### 4. Be careful with I, WE, and YOU

- 1. How to use I
- 2. How to use WE
- 3. How to use YOU

#### 4.1. How to use I

#### Use I:

- to describe research steps;
- •to state what you will do in a chapter/section.

| BAD                 | GOOD                         |
|---------------------|------------------------------|
| The results were    | I collected and compiled the |
| compiled after they | results.                     |
| were collected.     |                              |
| The author reviewed | I have reviewed the          |
| the literature.     | literature.                  |

#### 4.1. How to use I

#### Do not use I:

- •to state opinions;
- to cite credible sources
- •to support an argument.

| BAD  | GOOD  |
|--|---|
| I think it is likely that mobile phone technology will be used increasingly in | Educators are likely to use mobile phone technology increasingly. |
| education.   |   |

#### 4.2. How to use WE

Use WE: to refer to the coauthors as a group

| BAD                         | GOOD               |
|-----------------------------|--------------------|
| As behaviorists,            | As behaviorists,   |
| the authors tend to dispute | we tend to dispute |

#### 4.2. How to use WE

Do not use WE to group yourself with your readers

| BAD                    | GOOD                         |
|------------------------|------------------------------|
| We can stop obesity in | Moderate activity can reduce |
| our society through    | the risk of obesity.         |
| moderate activity.     |                              |

#### 4.3. How to use YOU

Do NOT use YOU. Replace it with a concrete noun.

| BAD                                 | GOOD                       |
|-------------------------------------|----------------------------|
| You can see the results in Table 3. | Table 3 shows the results. |

### 5. Use subjects effectively

- 5. Be careful with the subjects
  - 1. Avoid nominalization
  - 2. Avoid passive voice
  - 3. Use actors or concrete nouns as subjects
  - 4. Place subjects close to the beginning of the sentence
  - 5. Place verbs close tot the subjects

#### 5.1. Avoid nominalizations

- Nominalizations nouns made of verbs or adjectives
- Do not use nominalizations for subjects combined with any form of "BE"

| BAD  | GOOD   |
|--|--|
| Optimization of our work force is a key goal of our company. | Our company primarily aims at optimizing our work force. |

### How to spot a nominalization?

1. Can you change a noun into a verb or into an adjective?

2. If yes, it is a nominalization.

utilization – use

development – develop

redness - red

# 5.2. Avoid passive voice

| BAD  | GOOD  |
|--|---|
| The external temperature is measured by a special device | A special device measures the external temperature. |
| The papers were graded by the teacher.                   | The teacher graded the papers.                      |

# When to use passives?

- 1. when describing research methods
- 2. when the actor is unknown or unimportant
- 3. when you want to hide the actor
- 4. to ensure the "known-new contract"

# 5.3. Use actors or concrete nouns for subjects

#### **Avoid:**

- Expletives THERE IS/ARE and IT IS/WAS
- Isolated demonstrative pronouns THIS /THAT / THOSE /THESE
- Gerundial phrases

### 5.3.1. Avoid expletives: THERE IS/ARE

| BAD   | GOOD   |
|---|--|
| There is an easy way to determine the external temperature. | The external temperature is easy to determine. |
| There are three ways to solve this problem.                 | This problem has three solutions.              |

### 3.5.1. Avoid expletives: IT IS/WAS

| BAD  | GOOD   |
|--|--|
| It is possible that the external temperature exceeds 23 degrees Celsius. | The external temperature can exceed 23 degrees Celsius.    |
| It is clear that the data can be retrieved from different sources.       | Clearly, the data can be retrieved from different sources. |

### 5.3.2. Avoid isolated THIS / THAT / THOSE / THESE

| BAD   | GOOD   |
|---|--|
| That seemed to be a mistake.  | That tactics seemed to be a mistake.   |
| Erhmann writes, "do not distress yourself with dark imaginings". This is important to consider. | Erhmann writes, "do not distress yourself with dark imaginings". This idea is important to consider. |

# 5.3.3. Avoid gerundial phrases

| BAD   | GOOD  |
|---|---|
| Eating uncooked horse meat can cause health problems with students. | If students eat uncooked horse meat, they can have health problems. |

### 5.4. Place subjects close to the beginning of the sentence

**BAD** GOOD This solution should be Although reasonable under certain unfortunate generally avoided. However, it can be reasonable under circumstances not provided in this paper for the sake of certain unfortunate clarity, this solution should circumstances not provided in generally be avoided. this paper for the sake of clarity.

# 5.5. Place verbs close to the subject

| BAD                     | GOOD                     |
|-------------------------|--------------------------|
| Lecturers in the        | The interviews took      |
| electronics department  | place both in the        |
| of the university where | electronics and in the   |
| interviews took place   | biology departments of   |
| took a similar view to  | the university. In both  |
| those in biology.       | departments, the         |
|                         | lecturers took a similar |
|                         | view.                    |
